

Temperature Probe

TP 01

Raytech
SWITZERLAND

The TP 01 is an external temperature probe with a 10m cable. It can connect to several Raytech instruments to measure the temperature of the test object.

Technical Specification

Order number:	30074 TP 01
Cable length:	10m
Temperature range:	-20° ... 110°C
Accuracy (0 ... 70°C):	0.2K
Sensor:	B57863S103F40 B _{25/100} 3988K R ₂₅ 10kΩ
Plug (cabel):	Lemo FFA.1E.302.CLAC65
Socket (instrument):	Lemo ERA.1E.302.CLL
Set of 2 probes:	TP 02
Set of 3 probes:	TP 03
