# T-Base Pro

Remote Control, Data Exchange and Analysis

Description

T-Base Pro is a powerful tool to remote control Raytech test instruments, data exchange and analyse measured data of it. It runs on every windows based PC and a modern graphical user interface makes it easy and a pleasure to operate. Any custom request or special feature can easily be added with a custom Add-On.

Example

Advantages & Features

- Import transformer name plate data and measuring results from devices by USB with a few clicks

- Generate transformer name plate data sets on your PC and export them to devices

- View measurement data in a table or diagram

- Control devices by remote (option)

- Generate, save and print test reports

- Store all your data in one database ordered by transformers, not by measuring method

- Use powerful search functions to find your measurements quickly

- Work with a clearly arranged user interface

- Easily integrate individual software plug-ins to expand the T-Base Pro to what ever you need.

Specifications:
